## KILLED BY OFFICERS

An Unknown Man Shot to Death at  
San Antonio.

## FOUGHT THE POLICE

His Conduct Was Suspicious and When  
Officers Attempted to Arrest Him  
He Began to Shoot at Them  
and Lost His Life.

San Antonio, April 16.—An unknown man about 35 years old was shot and killed by officer in a saloon at 2 o'clock this morning. His suspicious conduct in the place caused the police to be notified and Officers Taylor, Harvey and Hughes responded and located the man in a rear room. As soon as the door was opened the stranger drew a pistol and Officers Harvey and Hughes grappled with him. He fired at Taylor over Harvey's head, burning the latter's face. Taylor then fired three shots, one of them taking effect in the heart of the stranger, killing him instantly. Officer Harvey was grazed by one of Taylor's bullets.

The dead man appeared to be about 35 years of age, was five feet five inches high, fairly well dressed and weighed about 145 pounds.

When searched two pistols were found on him, also two wallets, one containing \$100, the other \$240 in currency, and \$65 in bills was found in his socks. He had two spectacle cases, one stamped with the name of a Little Rock merchant, and another that of a Beaumont firm. He had no papers about him by which he might be identified.

## BULLION IN DANGER.

Fire in the Assay Office in New York Put  
Out by the Employees.

New York, April 16.—Thirty-one million dollars in silver bullion in the assay office at 30 Wall street has been in danger of being melted by a fire which burned in one of the basements for two hours. None but the employees knew of the fire, and they finally overcame it without assistance. Next door to the assay office is the sub-treasury, where the government usually has from \$100,000,000 to \$200,000,000 stored.

In some way fire in the silver smelting room was communicated to a barrel of lard mixture used in the smelting process. There were 23 barrels of this inflammable mixture in the room and like a flash they were enveloped in a sheet of flame so intense in heat that it was feared the great treasure in a vault of the room would be melted.

Fifty employees in the basement, thoroughly drilled for such an emergency, were quickly at work, despite the dense smoke. All windows and scuttles were closed to prevent giving the alarm to the public. After two hours work the last vestige of the fire had disappeared.

## ANTI-TRUST DECISION.

Court of Appeals Holds the Law of 1899 to Be Constitutional.

Austin, April 16.—The court of civil appeals has refused a rehearing in the case of the state of Texas against the Shipper's Compress and Warehouse company, which had been decided adversely to the state by the court. In refusing the rehearing, the court handed down an opinion in which it now holds that it was only the anti-trust laws of 1889 and 1895 which are unconstitutional, as they contained those provisions exempting agricultural products and livestock, that act is therefore constitutional.

The opinion was handed down by Chief Justice Fisher.

Applications to file a writ of mandamus has been filed in the supreme court here. It is styled J. E. Ketner against Land Commissioner Rogan to compel the land commissioner to issue an award to one section of land in Lyon county. Ketner claims the lease under the land law now is void and subject to sale while the respondent refuse to issue an award as he holds the lease is valid.

## GABRIN WAS POISONED.

Two Others of His Family Seriously Ill from the Same Cause.

Denver, April 16.—Startling developments have come to light regarding the death of Representative Albert Gabrin, who died at his home in this city early on the evening of January 8, from what was then supposed to be acute gastritis, superinduced by fermented wine used in making a mixed drink which he and other members of his family consumed at a family reunion on New Year's day. The chemist who examined the stomach of Mr. Gabrin says quantities of arsenic were found sufficient to produce death.

Miss Agnes Gabrin, sister of the deceased, and his father, Herman Gabrin, both of whom drank wine at the reunion are very sick and have been since that time. The condition of the young woman is serious. Dr. Albert, the physician attending them, says they are suffering from acetate or arsenic poisoning, over three months after the fatal dose was drunk.

Fleming, and as such is entitled to his share in the Fleming estate, held that there is no inconsistency in a religious or civil marriage following a contract that has existed in common law. Dr. Fleming's fortune has been approximated at between \$225,000 and \$250,000. When his son was born he was living with his common law wife, to whom he was afterward joined by a civil marriage. ## BRAIN-FOOD NONSENSE.

Another ridiculous food fad has been branded by the most competent authorities. They have dispelled the silly notion that one kind of food is needed for brain, another for muscles, and still another for bones. A correct diet will not not nourish a particular part of the body but it will sustain every other part. Yet, however good your food may be its nutriment is destroyed by indigestion or dyspepsia. You must prepare for their appearance or prevent their coming by taking regular doses of Green's August Flower, the favorite medicine of the healthy millions. A few doses aids digestion, stimulates the liver to healthy action, purifies the blood, and makes you feel buoyant and vigorous. You can get Dr. G. G. ### MALONEY-ROHDE.

The well laid plans of love found happy consummation in another wedding of notable interest in this city last night. It was a home wedding with all the charming accessories of music, flowers, exquisite dresses and the smiling faces of assembled friends. The contracting parties were Miss Mary Elizabeth Rohde of this city and Mr. James Taggart Maloney of Palestine. Dr. W. C. Friley, pastor of the First Baptist church, was the officiating minister. Miss Nellie Rohde, sister of the bride, was maid of honor, there being no other attendants. Just before the ceremony Miss Nellie sang "Why I Love You" with great sweetness and expression. Mendelssohn's wedding march was played by Miss Carnes, and during the ceremony Traumerie was rendered with violin obligato by Mr. Hardy Newton. "The Flower Song" followed the service, Dr. Mondrick assisting in a trio with a flute.

The rooms were in pink and white with a profusion of la France roses, palms, ferns and pot plants. In the arrangement a part of these were effectively massed in the parlor window where the wedding was solemnized beneath a beautiful bell of bride's roses. Good wishes and benedictions were showered upon the happy young couple, who also received in the form of handsome gifts more substantial testimonials of the esteem in which they are held.

The bride's dress was of white organdie over white taffeta and she carried pink carnations. The maid of honor wore a beautiful blue foulard silk, and carried pink carnations.

The bride is a daughter of Mr. and Mrs. Henry Rohde. She was reared in Bryan, and from childhood to womanhood, has been loved by the people of Bryan for her sweet and lovable disposition and womanly character.

Mr. Maloney was raised in Austin and is a young man of fine business ability. He has been in the employ of the International & Great Northern railroad since 1883, and now holds the important position of cashier at Palestine. During his residence in Bryan last year he made many friends and won a charming wife.

Mr. and Mrs. Maloney left last night for Austin to visit relatives. They will be at home at Palestine after April 21.

### TILSON-PARKER.

St. Andrew's Episcopal church, in which have been so many fashionable weddings in the past, was the scene of another equal in brilliancy to any of its predecessors last night, when Miss Frances Eleanor Parker and Mr. Phineas Shield Tilson were united in marriage by Dr. Herbert E. Bowers of Marshall, Texas.

The church was made beautiful with decorations of white and green—roses, smilax, palms and ferns—and overflowed with those gathered to witness the happy event. Milton Parker Jr. and Tom Adams were the ushers. At 9 o'clock, Mrs. Milton Sims Jr., at the organ, began playing the wedding march and Misses Mabel Robinson, Hattie McConico and Hettie Smith entered, two in front and one following, connected by a daisy chain and singing the wedding chorus from Lohengrin. Dr. Bowers immediately followed, and after him came the wedding party, Miss Grinnan of Terrell and Mr. John K. Parker, Miss Adams and Mr. O. E. Saunders, Miss Peverley and Mr. Sam B. Wilson, Miss Cavitt and Dr. F. R. Ross of Waco. Mrs. S. J. Bain of Houston, sister of the bride and matron of honor, came next, preceding the bride and her father, Mr. Milton Parker. The groom entered from the vestibule, accompanied by his best man, Mr. Charles Puryear, and met the bride at the altar, where the twain responded to the vows of the Episcopal service.

Carriages were in waiting at the door for the wedding party, which passed out in reverse order, and repaired to the home of the bride's parents, Mr. and Mrs. Milton Parker, elegant in its appointments and beautiful and fragrant with roses and carnations. Mrs. Milton Parker was assisted in receiving at the hall entrance by Mrs. G. S. Parker, Mrs. S. J. Bain and Mrs. A. L. Banks. In the parlors the guests were received by Mrs. M. D. Tilson and Mrs. M. C. Wade of Texarkana, Mrs. Walter Wiprecht, Mrs. A. B. Carr Jr., and Mrs. W. H. Oliver. Between the double parlors the bridal veils of the bride's four older sisters were effectively arranged in a love knot, with smilax and roses. Misses Robinson, Hettie Smith and Hattie McConico served punch under a bower of bamboo and roses arranged in the library.

The large assemblage showered congratulations upon the bride and groom, who were also the recipients of innumerable exquisite presents. For refreshment a salad course was served followed by cream, cake and coffee.

The bride's dress was of heavy white satin with court train, yoke and sleeves of shirred mouselin de soie, with deep bertha of point lace, veil and orange blossoms, the former caught with a diamond brooch, the

### MRS. NANCY HOLLIS.

Mrs. Hollis died Saturday, April 5th at her home near Edge, after an illness of several weeks, in her 80th year.

She was a native of North Carolina. Her maiden name was Pinkerton, and she was married at the age of 34 to Mr. William Hollis, of Alabama.

She had been a member of the Missionary Baptist church for several years, and was a zealous Christian. She leaves an aged husband, three children and three step-children.

We feel how weak and fruitless must be any attempt of ours to beguile them from the grief of a loss so overwhelming. We pray the Heavenly father may assuage the anguish of their bereavement and leave only the cherished memory of the loved and lost and the pride they must feel in having so true a mother and wife. ### MALONEY-ROHDE.

The well laid plans of love found happy consummation in another wedding of notable interest in this city last night. It was a home wedding with all the charming accessories of music, flowers, exquisite dresses and the smiling faces of assembled friends. The contracting parties were Miss Mary Elizabeth Rohde of this city and Mr. James Taggart Maloney of Palestine. Dr. W. C. Friley, pastor of the First Baptist church, was the officiating minister. Miss Nellie Rohde, sister of the bride, was maid of honor, there being no other attendants. Just before the ceremony Miss Nellie sang "Why I Love You" with great sweetness and expression. Mendelsohn's wedding march was played by Miss Carnes, and during the ceremony Traumerie was rendered with violin obligato by Mr. Hardy Newton. "The Flower Song" followed the service. Dr. Mondrick assisting in a trio with a flute.

The rooms were in pink and white with a profusion of la France roses, palms, ferns and pot plants. In the arrangement a part of these were effectively massed in the parlor window where the wedding was solemnized beneath a beautiful bell of bride's roses. Good wishes and benedictions were showered upon the happy young couple, who also received in the form of handsome gifts more substantial testimonials of the esteem in which they are held.

The bride's dress was of white organdie over white taffeta and she carried pink carnations. The maid of honor wore a beautiful blue foulard silk, and carried pink carnations.

The bride is a daughter of Mr. and Mrs. Henry Rohde. She was reared in Bryan, and from childhood to womanhood, has been loved by the people of Bryan for her sweet and lovable disposition and womanly character.

Mr. Maloney was raised in Austin and is a young man of fine business ability. He has been in the employ of the International & Great Northern railroad since 1883, and now holds the important position of cashier at Palestine. During his residence in Bryan last year he made many friends and won a charming wife.

Mr. and Mrs. Maloney left last night for Austin to visit relatives. They will be at home at Palestine after April 21.

### TILSON-PARKER.

St. Andrew's Episcopal church, in which have been so many fashionable weddings in the past, was the scene of another equal in brilliancy to any of its predecessors last night, when Miss Frances Eleanor Parker and Mr. Phineas Shield Tilson were united in marriage by Dr. Herbert E. Bowers of Marshall, Texas.

The church was made beautiful with decorations of white and green—roses, smilax, palms and ferns—and overflowed with those gathered to witness the happy event. Milton Parker Jr. and Tom Adams were the ushers. At 9 o'clock, Mrs. Milton Sims Jr., at the organ, began playing the wedding march and Misses Mabel Robinson, Hattie McConico and Hettie Smith entered, two in front and one following, connected by a daisy chain and singing the wedding chorus from Lohengrin. Dr. Bowers immediately followed, and after him came the wedding party, Miss Grinnan of Terrell and Mr. John K. Parker, Miss Adams and Mr. O. E. Saunders, Miss Peverley and Mr. Sam B. ## VOTE OF THE PEOPLE

Senate Committee Agrees on an Amendment to Election Bill.

### DEPEW'S AMENDMENT

It Passed the Committee by One Vote. Burleson Wants Waller Courtmartial Trial Evidence—Congressional Proceedings.

Washington, April 16.—The senate committee on privileges and elections, by a majority of one, has voted to amend the house resolution providing for the election of senators by direct vote of the people by adding the amendment offered by Senator Depew. The amendment is as follows:

"The qualifications of citizens entitled to vote for United States senators and representatives in congress shall be uniform in all the states, and congress shall have power to enforce this provision by appropriate legislation, and to cause the registration of citizens entitled to vote. The conduct of such elections and the certification of the result."

The committee voted down the proposed amendment providing that senators shall be apportioned according to the population of the several states. The vote on the Penrose amendment was unanimous. Senator Burrows voted with the Democrats in opposition to the Depew provision. Otherwise the vote was strictly on partisan lines. The division was as follows:

Ayes—Hoar, Pritchard, McComas, Foraker, Depew, Beveridge and Dillingham—7.

Noes—Burrows, Pettus, Blackburn, Dubois, Bailey and Foster of Louisiana—6.

There was a general discussion of the merits of the house resolution, and it was with the understanding that a vote should be reached upon it as amended at the next regular meeting of the committee, which will be held on Tuesday of next week.

### Congress Proceedings

Washington, April 16.—The debate on the Chinese exclusion bill was practically concluded Tuesday and voting on the bill and amendments began at 1 o'clock this afternoon.

By general consent a vote was taken on two important amendments offered by Mr. Fairbanks of Indiana, striking out the definition as to Chinese students and teachers and they were agreed to without divisions. These changes were made with a view to reconciling some of the opposition to the measure which has been directed against the rigid restrictions on students and teachers and the unnecessary inconveniences this would impose upon educated classes coming to this country. The debate was participated in by Senators Heitfeld of Indiana, Penrose of Pennsylvania and Turner of Washington in favor of the bill, and Senators Pritchard of North Carolina and Spooner of Wisconsin in opposition.

Mr. Turner made the assertion that politics had crept into the discussion and that most of the members of the majority were opposed to the bill. This brought out a sharp rejoinder from Mr. Spooner, who maintained that politics had not figured in the discussion, and that the opposition to the present bill was due entirely to its conflict with the treaty and not because of any opposition to exclusion which was an established doctrine of the government.

With the close of the Cuban reciprocity debate in the house, the leaders announced that all danger of the bill being weighed down with undesirable amendments was over and that they felt assured the bill would pass in the shape in which it came from the committee. As the bill in its present form is sure to command three-fourths of the vote of each side of the house, its passage was certain if it successfully passed the stage when amendments could be offered.

The only cause of anxiety heretofore has been the possibility that enough Republicans would join with the Democrats to overrule the chair and tack on the bill an amendment to abolish the differential on refined sugar. All the energies of the leaders have been directed, therefore, to bring pressure to bear on the recalcitrant Republicans to induce them from aiding this plan and Tuesday at the close of the session of the house, it was announced that the entire Republican delegations from Michigan and California, who constitute the head and front of the opposition, had agreed not to vote to overrule the ruling of the chair. Mr. Watson (Rep. Ind.), who is acting as the whip for the majority does not believe over a dozen Republicans at the outside, will join the Democrats on this proposition. It would require more than 20 Republican votes to place on the bill the amendment which might endanger its ultimate passage, as several Democrats, it is understood, also have declared their intention to stand by the ruling of the chair.

An unsuccessful effort was made again by Mr. Payne to secure an agreement to limit the general debate.

## VOTE OF THE PEOPLE

Senate Committee Agrees on an Amendment to Election Bill.

### DEPEW'S AMENDMENT

It Passed the Committee by One Vote. Burleson Wants Waller Courtmartial Trial Evidence—Congressional Proceedings.

Washington, April 16.—The senate committee on privileges and elections, by a majority of one, has voted to amend the house resolution providing for the election of senators by direct vote of the people by adding the amendment offered by Senator Depew. The amendment is as follows:

"The qualifications of citizens entitled to vote for United States senators and representatives in congress shall be uniform in all the states, and congress shall have power to enforce this provision by appropriate legislation, and to cause the registration of citizens entitled to vote. The conduct of such elections and the certification of the result."

The committee voted down the proposed amendment providing that senators shall be apportioned according to the population of the several states.

The vote on the Penrose amendment was unanimous. Senator Burrows voted with the Democrats in opposition to the Depew provision. Otherwise the vote was strictly on partisan lines. The division was as follows:

Ayes—Hoar, Pritchard, McComas, Foraker, Depew, Beveridge and Dillingham—7.

Noes—Burrows, Pettus, Blackburn, Dubois, Bailey and Foster of Louisiana—6.

There was a general discussion of the merits of the house resolution, and it was with the understanding that a vote should be reached upon it as amended at the next regular meeting of the committee, which will be held on Tuesday of next week.

SAFEST  
AND BEST

P. O. BOX

**The EYE**

The Eye is a wonderful piece of divine mechanism, and de-  
serves the best care within the reach of human knowledge. The  
delicate construction of this organ makes it necessary to use  
great care in selecting eyeglasses and spectacles. It is not gener-  
ally understood by those depending upon artificial assistance for  
good vision, that it requires as much skill and scientific knowl-  
edge to adjust lenses to the eye as it does to prescribe medicines  
for the human system. Much of the present day eye trouble is  
due to wearing cheap, decentered lenses. No person should wear  
a glass unless prescribed by a reliable eyesight specialist, one  
thoroughly acquainted with anatomy, physiology and diseases of  
the eye, laws of light and science of optics.

Ordinary failing eyesight is by some regarded as alarming—  
by others treated too carelessly. All eyes begin to fail at 40  
years of age, some have troubles a year or two before that time,  
the majority not till after. Ninety per cent of eye troubles are  
due to "putting off" the use of glasses after failure begins, or to  
wearing of wrong ones. Age, however, is no criterion for the  
wearing of glasses. Many are born with greater defects than  
come with the advance of years. When the need of glasses is  
actually evidenced, the CHILD OF TEN needs them much more  
than the adult of eighty. Nerve and muscle strain, due to the  
eye defects of children, act as an impediment to mental and phys-  
ical development. What the eye sees is telegraphed at once to  
the brain. Strain the nerves of the eye and the brain is made to  
feel and suffer. Eye testing and glass fitting has advanced to a  
science—even to the man who has perfected himself in that  
science, there is no one test which can always be depended upon  
for accurate results. That a complete and reliable diagnosis of  
the Eye can only be reached by the use of several tests is becom-  
ing universally acknowledged.

**SYMPTOMS OF EYE DEFECTS, SHOWING THE NEED  
OF GLASSES OR NEED OF DIFFERENT GLASSES.**

Headache, dizziness, aversion to bright light, inability to see  
at close range, with perfect distant vision, sleepy feeling and de-  
sire to close the eyes when reading, or lines and letters running  
together, darting pains in eyeballs or temples, acquired cross  
eyes in children under ten years of age, blurring of vision, or  
inability to see objects distinctly at a distance, holding reading  
or close work either beyond or inside the normal distance of  
twelve inches, fatigue, or requiring a stronger light when read-  
ing, smarting or burning sensation in or about the eyes, seeing  
objects double, quivering of lids, or jerking of muscles in and  
around the eyes, dark floating spots or bright lights flashing be-  
fore the eyes, turning head sideways to look at an object, or hold-  
ing object too close, watering of the eyes. This is an age of  
Specialists. The ability to do one thing and do it well is more  
to be commended and is of more benefit to humanity, than to do  
many things and none equal to the best. We limit our practice  
on the eye to errors of refraction, and thoughtful people are  
showing their appreciation of the specialist who devoted his time  
and study to acquiring knowledge of the eyes, and individual  
eyesight peculiarities.

**TALMAGE'S FUNERAL.**

Services Held Over the Remains at Wash-  
ington Before Taken to Brooklyn.  
Washington, April 16.—Funeral ser-  
vices were held at the Church of the  
Covenant Tuesday afternoon over the  
body of the Rev. T. DeWitt Talmage.  
The large church was crowded to the  
doors. Rev. Dr. Tunis Shamblin, pas-  
tor of the Church of the Covenant,  
and the Rev. Drs. Chalmers Easton of  
this city, J. S. Nichols and J. Demar-  
est of Brooklyn officiated.

The casket rested immediately in  
front of the pulpit and over it was a  
massive bed of violets. The floral of-  
ferings were numerous mostly of lil-  
lies of the valley and white roses, in-  
cluding a wreath sent from the White  
House by President and Mrs. Roose-  
velt.

The members of the stricken family  
occupied pews on the right, while  
across the aisle from them were the  
honorary pall-bearers, Justices Har-  
lan and Brewer of the United States  
supreme court, Senators Cullom, Bur-  
roughs and Dooliver; Representatives  
William A. Smith, Ex-Secretary John  
A. Foster, Rev. Dr. Klopsch of New  
York, Bittinger and Fisk and Dr. G.  
L. Magruder of this city, E. H. Branch  
and F. M. Lawrence, life-long Brook-  
lyn friends, and B. H. Warner of this  
city.

The remains will be buried at  
Brooklyn.

**Hotel Man Dead.**

San Antonio, April 16.—M. L. An-  
drews, prominent in hotel circles north  
and east, died in this city and his re-  
mains will be shipped to New York.  
For twenty-one years he was assistant  
superintendent of the Union League  
club of New York City, and for the  
past nine years he has been connected  
with the Majestic hotel of Philadelphia.  
Mr. Andrews came to San An-  
tonio on Dec. 15, and has been here  
ever since. The remains will be buried  
at Woodlawn cemetery, New York.

**Winthrop Had a Fire.**

Texarkana, Tex., April 16.—A disas-  
trous fire visited the little town of  
Winthrop, 42 miles north of here on  
the Kansas City Southern railroad.  
Sunday night. The stores of D. A.  
Rimes, W. T. Young and John Stevens  
were destroyed, these gentlemen being  
the principal losers. Mr. Rimes' loss  
is about \$16,000, insurance \$12,000. Mr.  
Stevens' loss is figured at \$2000 and  
Mr. Young's at \$750, and they carried  
less than half this amount of insur-  
ance. The total loss is about \$25,000.

**Wreck Due to Accident.**

Galveston, April 16.—An investiga-  
tion by the special agents of the Santa  
Fe shows that the wreck Sunday morn-  
ing near Brownwood was an accident  
and not the work of wreckers. The  
ties which were found on the track, it  
seems, were washed on the track by  
the heavy rain of Saturday night about  
a half mile from the scene of the  
wreck. The pilot of the engine picked  
up the tie and carried it for half a mile  
before it stuck fast in another tie and  
caused the wreck.

**Killed His Niece.**

Henrietta, I. T., April 15.—W. H.  
Means, a farmer formerly of Lexing-  
ton, Mo., Monday night shot and kill-  
ed his niece, Miss Lydia Means, 36  
years old, with whom he had become  
infatuated. The murder was only  
learned of when Means surrendered.  
The body was found in a cottage  
where the couple had lived together.  
Means believed to be insane. They  
came from Missouri.

**Knights Templars at El Paso.**

El Paso, Tex., April 16.—Three hun-  
dred Knights Templars are here at  
tending the forty-ninth annual three  
days' convocation of the grand command-  
ery of the state of Texas. They are  
being elaborately entertained. Gover-  
nor Ahumada of Chihuahua, a promi-  
nent shriner, and grand master of the  
United States, Henry B. Stoddard  
are among those in attendance.

**Crowd at the Reunion.**

Dallas, April 16.—Information at  
hand is to the effect that during the  
reunion the various railroads entering  
Dallas will bring here a total of 363  
special trains. The trains are to be of  
an average length of ten cars, and  
each car is expected to contain an  
average of 50 passengers. In other  
words, 3680 special cars will land here  
in the space of a very few hours next  
week, 184,000 persons.

**Smothered in a Cave-In.**

Ardmore, I. T., April 16.—Near Erin  
Springs, Dimp Pearce, Al King and  
Perry Cox, boys aged 8, 10 and 12  
years, while playing on the bank of  
the Washita, were killed by the caving  
in of the bank. Bud Parker and Mar-  
tion Cox were also seriously hurt in  
the same manner. They were rescued  
almost smothered to death.

**The EYE**

The Eye is a wonderful piece of divine mechanism, and deserves the best care within the reach of human knowledge. The delicate construction of this organ makes it necessary to use great care in selecting eyeglasses and spectacles. It is not generally understood by those depending upon artificial assistance for good vision, that it requires as much skill and scientific knowledge to adjust lenses to the eye as it does to prescribe medicines for the human system. Much of the present day eye trouble is due to wearing cheap, decentered lenses. No person should wear a glass unless prescribed by a reliable eyesight specialist, one thoroughly acquainted with anatomy, physiology and diseases of the eye, laws of light and science of optics.

Ordinary failing eyesight is by some regarded as alarming—by others treated too carelessly. All eyes begin to fail at 40 years of age, some have troubles a year or two before that time, the majority not till after. Ninety per cent of eye troubles are due to "putting off" the use of glasses after failure begins, or to wearing of wrong ones. Age, however, is no criterion for the wearing of glasses. Many are born with greater defects than come with the advance of years. When the need of glasses is actually evidenced, the CHILD OF TEN needs them much more than the adult of eighty. Nerve and muscle strain, due to the eye defects of children, act as an impediment to mental and physical development. What the eye sees is telegraphed at once to the brain. Strain the nerves of the eye and the brain is made to feel and suffer. Eye testing and glass fitting has advanced to a science—even to the man who has perfected himself in that science, there is no one test which can always be depended upon for accurate results. That a complete and reliable diagnosis of the Eye can only be reached by the use of several tests is becoming universally acknowledged.

**SYMPTOMS OF EYE DEFECTS, SHOWING THE NEED OF GLASSES OR NEED OF DIFFERENT GLASSES.**

Headache, dizziness, aversion to bright light, inability to see at close range, with perfect distant vision, sleepy feeling and desire to close the eyes when reading, or lines and letters running together, darting pains in eyeballs or temples, acquired cross eyes in children under ten years of age, blurring of vision, or inability to see objects distinctly at a distance, holding reading or close work either beyond or inside the normal distance of twelve inches, fatigue, or requiring a stronger light when reading, smarting or burning sensation in or about the eyes, seeing objects double, quivering of lids, or jerking of muscles in and around the eyes, dark floating spots or bright lights flashing before the eyes, turning head sideways to look at an object, or holding object too close, watering of the eyes. This is an age of Specialists. The ability to do one thing and do it well is more to be commended and is of more benefit to humanity, than to do many things and none equal to the best. We limit our practice on the eye to errors of refraction, and thoughtful people are showing their appreciation of the specialist who devoted his time and study to acquiring knowledge of the eyes, and individual eyesight peculiarities.

**TALMAGE'S FUNERAL.**

Services Held Over the Remains at Washington Before Taken to Brooklyn. Washington, April 16.—Funeral services were held at the Church of the Covenant Tuesday afternoon over the body of the Rev. T. DeWitt Talmage. The large church was crowded to the doors. Rev. Dr. Tunis Shamblin, pastor of the Church of the Covenant, and the Rev. Drs. Chalmers Easton of this city, J. B. Nichols and J. Demarest of Brooklyn officiated.

The casket rested immediately in front of the pulpit and over it was a massive bed of violets. The floral offerings were numerous mostly of lilies of the valley and white roses, including a wreath sent from the White House by President and Mrs. Roosevelt.

The members of the stricken family occupied pews on the right, while across the aisle from them were the honorary pall-bearers, Justices Harlan and Brewer of the United States supreme court, Senators Cullom, Burroughs and Dolliver; Representatives William A. Smith, Ex-Secretary John A. Foster, Rev. Dr. Klopsch of New York, Bittinger and Fisk and Dr. G. L. Magruder of this city, E. H. Branch and F. M. Lawrence, life-long Brooklyn friends, and B. H. **Wreck Due to Accident.**

Galveston, April 16.—An investigation by the special agents of the Santa Fe shows that the wreck Sunday morning near Brownwood was an accident and not the work of wreckers. The ties which were found on the track, it seems, were washed on the track by the heavy rain of Saturday night about a half mile from the scene of the wreck. The pilot of the engine picked up the tie and carried it for half a mile before it stuck fast in another tie and caused the wreck.
